

THE FIRST NATIONAL BANK

OF BROWNSVILLE, TEXAS.
ESTABLISHED 1891.

Capital [1903] \$100,000.

Surplus \$10,000.

The First National is pre-eminently the Bank of the Frontier. Its stockholders belong here. Its interests are those of our best and most progressive citizens. We offer to our customers, present and prospective, the advantages of the largest capital and surplus of any bank in this section, and of the safe and conservative banking methods which have resulted in the successful building up of this bank in the past twelve years.

Its financial position is established, and the energy, experience and business ability of the management will continue to be wholly directed to the maintenance and increase of these advantages.

Our Aim In Business.

We desire to make the First National the Bank of the People. The small depositor receives the same courteous treatment and consideration that is extended to the largest, within the limits of safe and conservative banking. Officers give personal attention to all details. Directors meet regularly and frequently, and keep closely in touch with the current business. Every safeguard known to safe and successful banking is availed of, and our past success is the best criterion by which to judge of the security of the future.

We Solicit The Patronage Of All.

Our funds are protected in a fire-proof vault and by the best safes to be obtained; and are further covered by insurance against burglary or daylight robbery. Our officers are under bond in the best surety companies.

People who intrust their money to a bank have a right to know its financial strength. We recognize this right and will cheerfully furnish any depositor a statement of our condition any day in the year. Absolute safety is the best thing we have to offer, and upon this basis your account is solicited.

Officers Of The First National Bank:

WM. KELLY, President,

S. L. DWORMAN, Vice President,

A. ASHHIEM, Cashier,

He said the Sap surveyors were laying off a townsite on Galveston ranch and would locate a depot and sidings. Mr. Turner has a copy of "The American Flag," a newspaper published at Matamoros in 1846. It is quite an interesting old relic. Rain is badly needed up his way, but then he prophesies for November a warm and wet month.

Among the improvements now in progress in the city is that of the Merchants National Bank where carpenters are at work putting in repairs to the building and making other preparations for placing of the new fixtures which are on the Manteo.
